of payment. This is a great privilege. How do banks acquire this privilege? In this lecture we will learn that a price they pay is that their business is a precarious one: in principle, a bank can be in a liquidity crisis at any moment of time. We will also learn how a good-bank/bad-bank policy can help banks trapped in liquidity crises.

Lecture 5: Monetary Policy

Question 5 stated above.

In this lecture we will learn how and when the quantity of fiat money matters for the economic efficiency. Hence, when the central bank opens its printing machine and changes this quantity, this

We will learn that the effect for different types of banks can be in opposite directions.
